

HDPE Wide Mouth Jars & Canisters

Powder Storage in a Convenient Package

We manufacture a wide selection of HDPE jars and canisters for powdered protein and supplements sold into the nutraceutical and sports nutrition markets. We offer wide mouth, continuous thread neck finishes in 89, 110, and 120 mm sizes to enable easy filling and scooping. Standard colors are white and natural, with custom colors available upon request. Choose from several wall designs (smooth, straight, or indented) to accommodate your marketing and labeling requirements. Jars and canisters are available in standard weight or in a lightweight design that provides the same storage capacity while utilizing 18% less plastic. All containers are recyclable and can be produced from 0 - 100% post consumer materials (PCR).
